2013 CCPPD Youth Energy Camp Participants

The 2013 Youth Energy Camp was held July 15-19 at the State 4-H Camp near Halsey, Nebraska. Cuming County Public Power District sponsored four area students: Emily Franzluebbers and Elizabeth Franzluebbers, daughters of Don & Lori Franzluebbers, Dodge; Ben Jahnke, son of Terry & Kristy Jahnke, Bancroft; and Ronald Kramer, son of James & Julia Kramer, West Point.

They had fun learning about electricity and meeting other students from around the state of Nebraska and a few from neighboring states. They went canoeing, played sports, and attended a banquet and a dance. They also had the opportunity to tour Gerald Gentleman Power Station near North Platte and Kingsley Hydro-Electric Power Plant near Ogallala.

We want to thank these students for attending the 2013 Youth Energy Camp on behalf of Cuming County Public Power District.
