## **Upgrades to Lines**

Cuming County Public Power District will be rebuilding some power lines North of Dodge in the next several weeks. Please watch for the linemen working in the area or plan a different route. The roads being affected are: County Road A between County Roads 1 and 5. This is in the northern Webster Township in Dodge County and the northern Lincoln Township in Colfax County near OLean Energy.

CCPPD linemen have already begun to lean poles near the blacktop road North of Dodge. Please be aware that new poles will be lying in the ditches so be careful when mowing or working in those areas. Leaning poles will allow them to replace these with new poles and upgrade the power lines.

This construction work could cause some planned outages periodically and we will do our best to inform you of these outages. Work should be completed within a few weeks. If you should have any questions, please contact the CCPPD office at 402-372-2463.
